

I am writing to support K-Love radio, which may be affected by proposed changes in LPFM coverage. Although K-Love is a nationwide service, it is an invaluable asset to our local community. It is the only local station to cover adult contemporary Christian music on a 24/7 basis. Its community calendar allows me to hear about events and concerts in my local area. Realistically, if an LPFM station were allowed to replace K-Love, it would probably duplicate one of the other existing formats at the expense of a totally unique station. Please do not make the mistake of assuming that a nationwide service, such as K-Love, does not have local importance!

Thank you for your consideration.
